Crypto Mining

Choosing a Crypto

To choose a crypto, simply press **use** (E by default) on the **crypto miner.**

The best crypto to mine can change at any time, so take a look at things like the **rate** to figure out what crypto is worth mining!

Withdrawing Crypto into your Ledger

To withdraw crypto, simply press **use** on the **crypto miner,** and click **withdraw.**

> You can only have one type of Crypto in your ledger at a time. You keep what's in your ledger, even after death, but try not to get mugged!

Selling your Crypto

To sell your crypto, simply walk up to a **crypto computer.** These can be found in front of the **bank,** in front of the **residential gas station,** and next to the inventory bank on **beach.** Simply click **quick sell** to sell all of the crypto in your ledger.
