Vandalism Mission

Overview

The goal of the Vandalism mission is to cause chaos around the map by vandalising the target objectives set for your group. It is a straightforward mission focused on hitting targets rather than defending a single spot.

How to Play

Once the Terrorist Leader starts the mission, a target or set of targets will be marked for your group. Head to each one and vandalise it to make progress. Work together as a group so you can deal with any Civil Protection or players who try to stop you.

Complete all of the targets before the mission timer runs out to finish the mission and earn the reward.
