Disguise

Disguise allows you to **change your player model** into anyone else's on the server. This helps you get into some places where you shouldn't normally be. Such as into a gang base, or into the **Police Department**.

Keep in mind, **it doesn't change your name** so you will have to make up a story as to why you're there!

You also **won't be able to switch item** while you are disguised, if you do your **disguise will be removed!**
